Subject: Email of Support

Hello Phil,

Can I start by wishing you and the HOVIP team a Happy New Year.

I am emailing you today to offer my support and thanks to HOVIP.

Over the last 8 months we have used the service for several different aspects of the business. The main aspects of this support has been through courses I have attended with yourself and Torfaen's Create project. I found these seminars provided excellent resources which you could adapt to any situation. I have also shared these resources with key members of my team.

I am also a member of the HOVIP Recycling Cluster and am in regular contact with Ken Davies, CIOTEK Project Manager. These meetings and the information and support Ken has provided has been invaluable to my social enterprise project.

Through these meetings I have been able to build links where other cluster members, Wrap and Green Triangle.

I believe this service is invaluable especially to small and charitable social enterprise projects like mine.

Yours faithfully,

Suzie Brown
