

PRINCE[®] 2

Refresh Breakfast Briefing

PRINCE2 is being refreshed as part of its lifecycle. Its name is **not** changing but there will be fundamental enhancements to the method.

The Business Development Team are pleased to welcome pearcemayfield to present a breakfast briefing to explain the changes and what they mean to you.

pearcemayfield are the only organisation that was asked to provide an author for the refresh of the two major methods in the world of project and programme management. Patrick Mayfield authored the 2007 version of MSP and John Edmonds authored the forthcoming version of PRINCE2.
